## THE REPORT OF THE CIVIC LEAGUE AT ANNUAL MEETING.

At the recent annual meeting of the Civic League the following report was submitted by the president, Mrs. C. S. Bonacker:

To the Officers and Members of the Civic League.

I beg to submit the following annual report:

The league started upon this, its fifth year handicapped by a debt, much to the regret of its retiring officers. This debt was incurred by trying to introduce domestic science into our public schools. The work was put into the high school for the reason that no other school building afforded the space.

On account of unforeseen obstacles, we were forced to abandon the project for the time being. We found ourselves encumbered with a debt of \$57.50 and a small building out of the league was still due the playgrounds association \$40.00 on the salary of Miss Chase. Through the promptness of members paying their dues and the generosity of a friend or two, the league is today free from debt.

The three meetings held during the summer were fairly well attended and interest kept up in all activities of the city. Through the columns of The Journal the league made an appeal to all housewives for co-operation with the city garbage contractor for the prompt removal of garbage. Articles appeared in the paper from time to time during the summer on the garbage question. At the league's suggestion the wagons were numbered and were reported by number. There was a failure to promptly remove garbage. The contractor telephoned us that these articles had been of much assistance to him in bringing about a better understanding of what the law required of the people as well as the contractor.

The work of the league during the past winter has been mostly educational. Will not tire you with the details, but will state that the results have been very satisfactory. Several of the schools were already organized into Parent-Teacher Associations or leagues. Nearly every school in the city has its Parent-Teachers' organization and the co-operation of the parents with the teacher along the line of individual work.

Tried for medical inspection and sanitary drinking fountains in schools but did not succeed in securing them, but feel sure that they will come to us in the near future. It was through the direct efforts of the league that the Home and School Council was organized at the grammar school and

the summer schools have been made a possibility. There will be many a pupil that will rise up and call you blessed for this opportunity to escape that tiresome "second year in one grade."

The league has become a member of the State Federation of Women's Clubs. Through the federation we will broaden our opportunities for information and usefulness. A. . . . . Our present membership is eighty-one. We want to have a larger membership and greater diversity of work. All are not equally interested in each branch of work. I therefore, recommend that we endeavor to add to our membership those interested in the various branches of civic work, thereby giving us greater influence and power for the good of our city.

Let me but far from being the least, I want to thank Miss Celia Robinson, chairman of our press committee, for her very efficient work. The fine articles appearing in her department of The Journal have not only been interesting but inspiring to the league members.

Thanking the officers and governing board for their hearty support and co-operation in the year's work and asking for my successor your same cheerful aid,

Respectfully submitted,

MINNIE L. BONACKER,

President Civic League.

Waukegan, Ill., May 17.—"My daughter has just eloped with a man in a racing car and they are on their way to Waukegan to be married. Stop them. I will be there as soon as I can in my automobile."

The foregoing telephone message was received at 1 o'clock this morning by the Waukegan police from John Olie, a wealthy foundryman at Racine.

A short time later an automobile dashed up to the city hall and Joe Jaegersberger, 28 years old, an employee of the J. I. Case company, and Amanda Olie, 18 years old, stepped from the car and inquired for a minister, explaining that they desired to be married as soon as possible.

Father Arrives Half Hour Later.

They were detained and a half-hour later Olie arrived after an exciting chase in his automobile.

"Am I in time," he anxiously inquired.

"Yes, we have the couple inside," replied a policeman.

Olie was angry and after a heated interview with Jaegersberger the father took his daughter back home with him.

"I have been expecting this for several weeks," said Olie.

"My daughter has been keeping company with this man and I knew they wanted to get married. I objected and kept a close watch. Last
